# Foster® 40-80™

For porous and non-porous surfaces

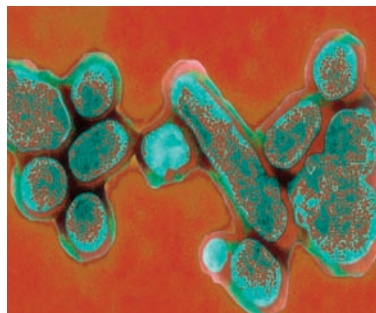

Foster®, the leading brand of antimicrobial and mold resistant product solutions, have been manufactured and sold to the indoor air quality (IAQ) market for well over a decade.

Foster products have been scientifically proven effective in the toughest conditions. The Foster brand's innovative technology delivers superior performance, unmatched in the IAQ industry.

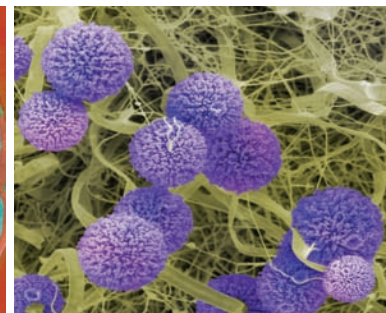

Foster® 40-80™, a convenient, one-step disinfectant for use on non-porous surfaces. In addition, Foster 40-80 is an EPA registered sanitizer designed for use in water damage restoration situations to sanitize against odor-causing bacteria and fungi on porous and semi-porous materials and safely cleans surfaces in such places as homes, restaurants, schools, hospitals, food and beverage processing plants. This formulation is effective against a broad spectrum of mold, fungus, bacteria and viruses.

## Features and Benefits

- Ready-to-use, eliminate working with a corrosive or dangerous concentrate
- Ideal for use as a disinfectant, sanitizer, cleaner, fungicide, deodorizer, virucide or germicide to kill a large variety of microbes within minutes
- Can be used to sanitize porous and non-porous surfaces such as carpet, cushions, sub floors, drywall, trim and frame lumber, tackless strip and paneling, metal, ceramic and non-ceramic tile, plastic and other wood substrates
- Contains surfactants to clean and remove mold from soiled surfaces such as countertops, cupboards, doorknobs, appliance exteriors, showers, tubs, telephones, computers, sinks, faucets and exterior toilet surfaces
- Cleans and removes mold and mildew residue
- For home, hospital, institutional and industrial use
- Easy to apply with wipe, cloth, mop, sponge or spray
